Eager-to-learn front-end developer with 2 years of experience in building and maintaining high quality websites and applications. Passionate about designing beautiful, functional and user-friendly applications. Currently learning Flutter to expand knowledge in developing multi-platform applications, such as mobile and web.

EXPERIENCE

2022/02 - Programmer

Present

PT Makmur Supra Nusantara

- Built an e-commerce website to trade points for products using the Laravel framework.
- Redesigned and developed an Angular web application used by over 50 construction stores across Indonesia to track its business operations.
- Utilized Flutter to develop the mobile version of the previously mentioned Angular web application, which is already published in the App Store and Google Play Store.
- Created a minimum viable working prototype for a loyalty membership mobile application using Figma.

2021/09 - Junior Programmer

2022/02

Guggemo

- Worked on the front-end development of Guggemo's website and mobile site using Angular.
- Used Github to manage branches and develop new features.
- Made use of Jira to track issues that are backlogged, in development or completed.

2021/03 - Web Developer Intern

2021/08

Penang Science Cluster

- Designed and developed an informative website for Girls in Engineering and Technology.
- Created a Web Development module to teach grade students how they can develop their own website.
